Covered procedures

Your LASIK Advantage benefits can be applied to the following procedures: LASIK, LASIK with IntraLase or “All laser LASIK”, LASIK with wavefront technology, PRK, LASEK, and ASA.

This list does not indicate these procedures are appropriate for every condition or patient. Individuals age 18 and older who are interested in laser vision correction surgery should consult their eye doctor to determine whether they are candidates or not. The eye doctor or laser correction provider should explain all procedure options available, including the potential risks and side effects of each.

Non-covered procedures

The following list shows procedures that are not eligible for LASIK Advantage benefits. Of these non-covered procedures, some may be covered by medical insurance, and some are older procedures that are no longer widely accepted practices.

- PTK (Phototherapeutic Keratectomy)
- Computerized Corneal Topography, Unilateral
- Epikeratoplasty
- Automated Lamellar Keratoplasty
- Limbal Relaxing Incisions
- Anterior Ciliary Sclerotomy
- Laser Thermal Keratoplasty
- Conductive Keratoplasty
- Astigmatic Keratotomy
- Hexagonal Keratotomy
- Radial Keratotomy
- PHAKIC Implant
- Any procedure codes separated for pre- or post-surgical procedures
